

The Availity® Essentials **Attachments tool** allows providers to submit electronic **Recommended Clinical Review** (RCR – formerly predetermination of benefits) and attach supporting clinical documentation for Blue Cross and Blue Shield of Oklahoma (BCBSOK) members.

A Recommended Clinical Review (RCR) is a voluntary request for written verification of benefits prior to rendering services. BCBSOK recommends submitting a Recommended Clinical Review request if the service may be considered experimental, investigational, or unproven, as indicated within the [BCBSOK Medical Policy](#).

You must be a registered Availity Essentials user to access and utilize the Attachments tool. If you are not yet registered with Availity, complete the guided online registration process at [Availity](#), at no cost.

Important Reminder:

Verify the patient’s eligibility and benefits online first. To learn more about checking eligibility and benefits via Availity, refer to the [Eligibility and Benefits User Guide](#).

The information in this user guide does not apply to RCR requests for Medicare Advantage members.
