

Name: Patricia Liu

Grade: 5<sup>th</sup>

# BE SMART- DON'T START!

Last year, Belle's dad died from lung cancer. Belle knew that her father used to smoke, but she never knew that it could cause cancer. She was badly mistaken.

Belle found out that smoke contains over 4,000 chemicals and 43 of them causes cancer. she also discovered that over 90 percent of people with lung cancer die within 5 years.

Belle knew that cigarettes cost way too much. It's like paying tobacco companies to give you lung cancer. Smoking causes 87% of all lung cancers. 3 million people die each year from smoking.

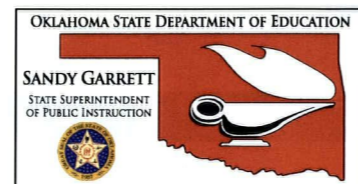

If you know someone that smokes or wants to smoke, tell them Belle's story and remember, Be Smart - Don't start!

**Working Together for a Healthier Oklahoma!**

Special thanks to contest sponsor, Lamar Advertising Company, for in-kind donations of outdoor advertising.

Blue Cross and Blue Shield of Oklahoma is a Division of Health Care Service Corporation, a Mutual Legal Reserve Company, an Independent Licensee of the Blue Cross and Blue Shield Association.

*Belle doesn't want to be one of them.*
