

**2021 Commercial Outpatient Benefit Prior Authorization Fully Insured  
Medical Surgical Procedure Code List  
Updated July 2021**

This is not an exhaustive listing of all codes. Codes may change, and this list may be updated throughout the year. The presence of codes on this list does not necessarily indicate coverage under the member benefits contract. It is imperative that providers check eligibility and benefits through Availity® or their preferred vendor to determine if a prior authorization is required.

Blue Cross and Blue Shield of Oklahoma (BCBSOK) has contracted with AIM Specialty Health® (AIM) to provide certain utilization management services. AIM is an independent company that provides specialty medical benefits management for BCBSOK.

This list includes AIM and BCBSOK managed procedure code changes for services that may require benefit prior authorization through BCBSOK for one or more of our networks (Blue Choice PPO<sup>SM</sup>, Blue Preferred PPO<sup>SM</sup>, Blue Traditional<sup>SM</sup>).

PRESS "CTRL" AND "F" KEYS AT THE SAME TIME TO BRING UP THE SEARCH BOX. ENTER A PROCEDURE CODE OR DESCRIPTION OF THE SERVICE.

Procedure Code	Service/ Category	Description	Medical Policy Number	Medical Policy Title	Updates
0242U	Molecular Genetic Testing	Trgt Gen Seq Alys Pnl 55-74	AIM	AIM Guidelines	Add effective 10/01/2021

\*These are procedure codes that required prior authorization prior to 01/01/2021 that were added to this 2021 document. Unless otherwise indicated, codes in this list may require prior authorization.

Please note that checking eligibility and benefits and/or the fact that a service has received prior authorization/pre-notification is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member's eligibility and the terms of the member's certificate of coverage applicable on the date services were rendered.
