Mid-Market Plans
Small Group (SG) Plans

Reminder: Quarterly Pharmacy Changes are published in two parts. The part 1 article covers changes that require member notification – drug list revisions/exclusions, dispensing limits, utilization-management changes and general information on pharmacy benefit program updates. Our members receive letters regarding these changes. The part 2 article includes updates that do not require member notification. These changes will be published closer to the Jan. 1, 2027, effective date.

Pharmacy Benefit Reminders

A new year often welcomes new members to Blue Cross and Blue Shield of Oklahoma or updates to a current member's benefits. As you visit with your patients, consider discussing their pharmacy benefits. Mentioning the following items can help them with this transition.

- Your patient's pharmacy benefits may be new to them or apply to an updated drug list. The preview drug lists are available on our member website to help both you and your patients when prescribing medication. The final drug lists will be available closer to the Jan. 1, 2027, effective date.
- Review the prescription drug list before prescribing medications. Some drugs may have been excluded from coverage or have a new utilization management program requirement. If your patients need a coverage exception or prior authorization request, visit the Prior Authorization and Step Therapy Programs section of our provider website where you can find forms and more information.
- Some members' plans may experience changes to the pharmacy network, such as moving to a new pharmacy network or changes to pharmacies participating within the network. Members who are impacted by these changes will receive letters to alert them they will pay more if continue to use a pharmacy no longer in network. In most cases, no action is required on your part for these pharmacy network changes. Members can easily transfer prescriptions to an in-network pharmacy. You may want to ask which pharmacy is their preferred choice if your office stores pharmacy information on patient records.

If you or your patients are concerned about a particular drug benefit change, call the number on their ID card to confirm any new or updated pharmacy benefits. Treatment decisions are always between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

Drug List Changes

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the BCBSOK drug lists, effective on or after Jan. 1, 2027.

The January Quarterly Pharmacy Changes Part 2 article with recent coverage additions will be published closer to the Jan. 1 effective date.

Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.

Drug-list changes are listed on the charts below, or you can view the January 2027 drug lists on the BCBSOK member website.

Drug List Exclusions and Revisions

BALANCED DRUG LIST EXCLUSIONS		
DRUG[1]	ALTERNATIVES	CONDITION
BOSULIF (bosutinib tab 100 mg, 400 mg, 500 mg)	There is a generic equivalent available. Please talk to your health care provider or pharmacist about other medication(s) available for your condition.	Cancer
everolimus tab 2.5 mg, 5 mg, 7.5 mg, 10 mg	This medication is available through SortPak Pharmacy. Call 877-570-7787.	Cancer
imatinib mesylate tab 100 mg, 400 mg (base equivalent)	This medication is available through SortPak Pharmacy. Call 877-570-7787.	Cancer
JANUMET XR (sitagliptin phosphate-metformin HCl tab ER 24 hr 50-500 mg, 50-1000 mg, 100-1000 mg)	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Type 2 diabetes
NEULASTA (pegfilgrastim inj 4 mg/0.4 mL)	FULPHILA, UDENYCA	Neutropenia
NEULASTA (pegfilgrastim soln prefilled syringe 6 mg/0.6 mL)	FULPHILA, UDENYCA	Neutropenia
NEULASTA ONPRO KIT (pegfilgrastim soln prefill syr/infusion dev 6 mg/0.6 mL)	FULPHILA, UDENYCA	Neutropenia
NUEDEXTA (dextromethorphan HBr-quinidine sulfate cap 20-10 mg)	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Pseudobulbar Affect

BALANCED DRUG LIST EXCLUSIONS		
OPSUMIT (macitentan tab 10 mg)	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Pulmonary Arterial Hypertension
PENTASA (mesalamine cap ER 250 mg)	balsalazide, budesonide DR capsule, mesalamine DR capsule 400 mg, mesalamine ER capsule 0.375 gm (generic APRISO), mesalamine enema, mesalamine suppository, mesalamine DR tablet 800 mg, mesalamine DR tablet 1.2 gm, sulfasalazine	Ulcerative Colitis
PERIOMED (stannous fluoride conc 0.63%)	Rx alternatives are available.	Dental Caries Prophylaxis
PREMARIN (estrogens, conjugated tab 0.3 mg, 0.45 mg, 0.625 mg, 0.9 mg, 1.25 mg)	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Menopausal Symptoms
PRIFTIN (rifapentine tab 150 mg)	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Tuberculosis
stannous fluoride conc 0.63%	Rx alternatives are available.	Dental Caries Prophylaxis
stannous fluoride gel 0.4%	Rx alternatives are available.	Dental Caries Prophylaxis
temozolomide cap 5 mg, 20 mg, 100 mg, 140 mg, 180 mg, 250 mg	This medication is available through SortPak Pharmacy. Call 877-570-7787.	Cancer
VENTOLIN HFA (albuterol sulfate inhal aero 108 mcg/act (90 mcg base equiv))	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Asthma
XELJANZ (tofacitinib citrate oral soln 1 mg/mL (base equivalent))	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Autoimmune disorder
XELJANZ (tofacitinib citrate tab 5 mg, 10 mg (base equivalent))	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Autoimmune disorder
XELJANZ XR (tofacitinib citrate tab ER 24 hr 11 mg, 22 mg (base equivalent))	There is a generic equivalent available. Please talk to your provider or pharmacist about other medication(s) available for your condition.	Autoimmune disorder

Tier 1 to Tier 2 Changes

The following drugs are moving from a preferred generic (tier 1) to a non--preferred generic (tier 2) effective Jan. 1, 2027. These changes only apply to members with a pharmacy benefit plan that includes different payment tiers for preferred generics and non-preferred generic (e.g. 5-tier or higher plan design with preferred generic and non-preferred generic lower tiers). Members may pay more for these drugs.

PERFORMANCE FULL DRUG LIST TIER 1 TO TIER 2 CHANGES	
DRUG[1]	CONDITION

morphine sulfate tab CR 15 mg	Pain
morphine sulfate tab ER 15 mg	Pain
vardenafil HCl tab 2.5 mg	Erectile dysfunction

Utilization Management Program Changes

Utilization Management programs are implemented to regularly review the appropriateness of medications within drug-therapy programs, and as a result, may adjust dispensing limits, prior authorization or step-therapy requirements. The following drug programs reflect those changes.

Standard Prior Authorization Program Changes

Changes to drug categories and/or medications will be made to the Prior Authorization (PA) programs for standard pharmacy benefit plans. This includes ASO groups with a standard UM package and/or subcategory selection with auto updates.

For groups that have not selected the auto update, these programs will be available to be added to their benefit design as of the program effective date.

Members received letters regarding the program changes listed below. All changes are effective Jan. 1, 2027.

BALANCED DRUG LIST		
TARGET AGENTS	PROGRAM NAME	PROGRAM TYPE

Oral Tetracycline Derivatives ST	Step Therapy	Program changed from Prior Authorization to Step Therapy	Basic, Basic Multi-Tier, Enhanced, Basic Annual, Enhanced Annual	1/1/2027

Dispensing Limit Changes

The BCBSOK prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration approved dosage regimens and product labeling.

BCBSOK does not notify members of dispensing limit changes as most identified impacted members are not at risk of exceeding the limits.

All drugs with dispensing limits have been consolidated into one document that is available on BCBSOK.com. If a member is uncertain about a particular drug, they can log into their online account at MyPrime.com or BCBSOK.com. Members can also download the BCBSOK Mobile App to manage prescription drug benefits. In addition to these online resources, members can call the number on their member ID card and speak to a customer advocate.

Dispensing Limits that were listed on the provider page are now available on the member drug list page. All drugs with dispensing limits have been consolidated into one document that is available on BCBSOK.com.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also log in to Blue Access for Members℠ or MyPrime.com for more online resources.

Change in Benefit Coverage for Select High-Cost Products

Several high-cost products with available lower cost alternatives will be excluded on the pharmacy benefit for select drug lists. This change impacts BCBSOK's members who have prescription-drug benefits administered by Prime Therapeutics†. This change is part of an ongoing effort to ensure our members and employer groups have access to safe, cost-effective medications. Members were lettered regarding these changes (unless otherwise noted).

PRODUCT(S) NO LONGER COVERED[1]	COVERED ALTERNATIVE(S)[1, 2]	CONDITION

Pharmacy Benefits Updates

Visit the Provider's Pharmacy page for resource materials.

HDHP-HSA Preventive Drug Program Updates

The HDHP-HSA Preventive Drug Program offers certain preventive medications at reduced out-of-pocket costs to members in select High Deductible Health Plans, along with those using a Health Savings Account. When members have reduced cost-share, it can improve adherence and clinical outcomes, as well as provide a positive member experience.

See below for the applicable categories and the 2027 updates for each market segment.
