

BlueCross BlueShield of Oklahoma

If a conflict arises between a Clinical Payment and Coding Policy (“CPCP”) and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. “Plan documents” include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions, and other coverage documents. BCBSOK may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSOK has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from Health Insurance Portability and Accountability Act (“HIPAA”) approved code sets. Claims should be coded appropriately according to industry standard coding guidelines including, but not limited to: Uniform Billing (“UB”) Editor, American Medical Association (“AMA”), Current Procedural Terminology (“CPT®”), CPT® Assistant, Healthcare Common Procedure Coding System (“HCPCS”), ICD-10 CM and PCS, National Drug Codes (“NDC”), Diagnosis Related Group (“DRG”) guidelines, Centers for Medicare and Medicaid Services (“CMS”) National Correct Coding Initiative (“NCCI”) Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions are subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

Prostate Biopsy Specimen Analysis

Policy Number: CPCPLAB005

Version 1.0

Enterprise Clinical Payment and Coding Policy Committee Approval Date:

Plan Effective Date: Feb. 1, 2024

Description

BCBSOK has implemented certain lab management reimbursement criteria. Not all requirements apply to each product. Providers are urged to review Plan documents for eligible coverage for services rendered.

Reimbursement Information:

1. In the initial diagnosis of prostate cancer as a follow-up to abnormal PSA results, presence of a palpable nodule on digital rectal examination, or suspicious radiologic findings, pathological examination of tissue obtained from a prostate biopsy involving 12 core extended sampling (See **NOTE 1** below) **may be reimbursable**.
2. When the clinical suspicion of prostate cancer remains in an individual for whom an initial biopsy was negative for prostate cancer, pathological examination of tissue from a follow-up prostate biopsy (excluding prostate saturation biopsy) **may be reimbursable**.
3. Pathological examination of tissue obtained from a prostate saturation biopsy or **are not reimbursable** for the diagnosis, staging and management of prostate cancer.

Note 1: One vial per sextant, with no more than two core samples per vial.

Procedure Codes

The following is not an all-encompassing code list. The inclusion of a code does not guarantee it is a covered service or eligible for reimbursement.

Codes
88305, G0416

Policy Update History:

Effective Date	Summary of Change
02/01/2024	Document updated with literature review. The following changes were made to Reimbursement information: Added “pathological examination of tissue obtained from a...” to all criteria. Removed 3D mapping from #1 and #3; removed codes 0443T, 55700, 55706. Title changed from Prostate Biopsies. References revised.
11/01/2023	Document updated with literature review. Reimbursement statement 1 edited for clarity. Added #2: When the clinical suspicion of prostate cancer remains in an individual for whom an initial biopsy was negative for prostate cancer, follow-up biopsy (excluding prostate saturation biopsy) may be reimbursable. References revised.
11/1/2022	New policy
