

If a conflict arises between a Clinical Payment and Coding Policy (“CPCP”) and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. “Plan documents” include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions, and other coverage documents. BCBSOK may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSOK has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from Health Insurance Portability and Accountability Act (“HIPAA”) approved code sets. Claims should be coded appropriately according to industry standard coding guidelines including, but not limited to: Uniform Billing (“UB”) Editor, American Medical Association (“AMA”), Current Procedural Terminology (“CPT”), CPT® Assistant, Healthcare Common Procedure Coding System (“HCPCS”), ICD-10 CM and PCS, National Drug Codes (“NDC”), Diagnosis Related Group (“DRG”) guidelines, Centers for Medicare and Medicaid Services (“CMS”) National Correct Coding Initiative (“NCCI”) Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions are subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

Prenatal Screening (Nongenetic)

Policy Number: CPCPLAB014

Version 1.0

Enterprise Clinical Payment and Coding Policy Committee Approval Date: July 17, 2023

Plan Effective Date: November 1, 2023

Description

BCBSOK has implemented certain lab management reimbursement criteria. Not all requirements apply to each product. Providers are urged to review Plan documents for eligible coverage for services rendered.

Reimbursement Information:

Note 1: For thyroid screening in pregnant individuals, see CPCPLAB019 Thyroid Disease Testing. For fetal aneuploidy screening, see CPCPLAB022 Prenatal Screening for Fetal Aneuploidy.

For screening for Zika virus infection in pregnant individuals, see CPCPLAB052 Testing for Vector-Borne Infections.

1. The following routine prenatal screening **may be reimbursable** for all pregnant individuals:
 - a. Screening for HIV infection
 - b. Screening for *Chlamydia trachomatis* infection
 - c. Screening for *Neisseria gonorrhoea* infection
 - d. Screening for hepatitis B
 - e. Screening for syphilis
 - f. Screening for hepatitis C
 - g. Screening for bacteriuria
 - h. Screening for type 2 diabetes at the first prenatal visit
 - i. Screening for gestational diabetes during gestational weeks 24 – 28 and at the first prenatal visit if risk factors are present
 - j. Determination of blood type, Rh(D) status, and antibody status during the first prenatal visit, and repeated Rh (D) antibody testing for all unsensitized Rh (D)-negative women at 24 to 28 weeks' gestation, unless the biological father is known to be Rh (D)-negative
 - k. Screening for anemia with a CBC or hemoglobin and hematocrit with mean corpuscular volume
 - l. Screening for Group B strep once, recommended during gestational weeks 36 to 37 by American College of Obstetricians and Gynecologists (ACOG)
 - m. Urinalysis and urine culture
 - n. Rubella antibody testing
 - o. Testing for varicella immunity
 - p. Screening for tuberculosis in pregnant individuals deemed to be at high risk for TB)
2. For pregnant individuals, third trimester re-screening of *Chlamydia trachomatis*, *Neisseria gonorrhoea*, syphilis, and/or HIV infections **may be reimbursable** when **any** of the following high-risk criteria are met:
 - a. For individuals under 25 years of age.
 - b. For individuals with new or multiple sexual partners.
 - c. For individuals with a history of sexually transmitted infections (Bacterial Vaginosis, Chancroid, Chlamydia, Gonorrhoea, Genital Herpes, Hepatitis B, Hepatitis C, HIV/AIDS, Human Papillomavirus, Lymphogranuloma Venereum, Syphilis, Trichomoniasis).
 - d. For individuals with past or current injection drug use.
3. Rapid HIV testing for pregnant individuals who present in active labor with an undocumented HIV status **may be reimbursable**.
4. For pregnant individuals, fetal fibronectin (FFN) assays **may be reimbursable** when **ALL** of the following criteria are met:
 - a. Singleton or twin gestations;
 - b. Intact membranes;
 - c. Cervical dilation <3 cm; and
 - d. The individual is experiencing symptoms suggestive of preterm labor between 24 and less than 35 weeks' gestation.

5. For individuals with a normal pregnancy without complications, human chorionic gonadotropin (hCG) hormone testing **is not reimbursable**.
6. For all other situations not described above, FFN assays **are not reimbursable**.
7. Serial monitoring of salivary estriol levels as a technique of risk assessment for preterm labor or delivery **is not reimbursable**.

Procedure Codes

The following is not an all-encompassing code list. The inclusion of a code does not guarantee it is a covered service or eligible for reimbursement.

Codes
80055, 80081, 81001, 81002, 81003, 81007, 81015, 82677, 82731, 82947, 82950, 82951, 82962, 83020, 83021, 83036, 84702, 84703, 84704, 85004, 85007, 85009, 85014, 85018, 85025, 85027, 85032, 85041, 85048, 86480, 86580, 86592, 86593, 86631, 86632, 86701, 86702, 86703, 86704, 86706, 86762, 86780, 86787, 86803, 86804, 86850, 86900, 86901, 87077, 87081, 87086, 87088, 87110, 87270, 87320, 87340, 87341, 87490, 87491, 87590, 87591, 87592, 87653, 87800, 87802, 87810, 87850, G0306, G0307, G0432, G0433, G0435, G0472, S3652, 0167U

Policy Update History:

7/17/2023	Document updated with literature review. Reimbursement information revised to include Note 1 that references other policies: For thyroid
-----------	------------------------------------------------------------------------------------------------------------------------------------------

	<p>screening in pregnant individuals, see CPCPLAB019 Thyroid Disease Testing. For fetal aneuploidy screening, see CPCPLAB022 Prenatal Screening for Fetal Aneuploidy. For screening for Zika virus infection in pregnant individuals, see CPCPLAB052 Testing for Vector-Borne Infections. Addition of those reference notes resulted in removal of 1h, Screening for fetal aneuploidy in accordance with CPCPLAB022 Prenatal Screening for Fetal Aneuploidy; removal of #5 regarding testing pregnant women for thyroid dysfunction; and #6 Screening for Zika virus testing in accordance with CPCPLAB042 Zika Virus Testing (now part of CPCPLAB052 Testing for Vector-Borne Infections); removed #7 Fetal RHD genotyping using maternal plasma may be reimbursable in RHD negative pregnant women. Added new #5 For individuals with a normal pregnancy without complications, human chorionic gonadotropin (hCG) hormone testing is not reimbursable. Women changed to individuals throughout; other revisions made for clarity. References revised.</p>
11/1/2022	New policy
