

Blue Cross and Blue Shield of Oklahoma Drug Formulary

DRUG LIST BY THERAPEUTIC CLASS

Blue Cross and Blue Shield of Oklahoma members are requested to talk to their physicians about prescribing medications included on the Drug List.

This document reflects the Blue Cross and Blue Shield of Oklahoma and BlueLincs HMO Drug Formulary as of January 1, 2008. The Drug List is updated quarterly. Please visit www.bcbsok.com for recent updates.

To search for a drug name within this PDF document, use the **Control** and **F** keys on your keyboard, or go to **Edit** in the drop-down menu and select **Find/Search**. Type in the word or phrase you are looking for and click on **Search**.

INTRODUCTION

Blue Cross and Blue Shield of Oklahoma is pleased to present the 2008 Blue Cross and Blue Shield of Oklahoma and BlueLincs HMO Drug Formulary. The formulary listing includes all Tier 2 Preferred Brand drugs and a partial listing of Tier 1 Generic drugs and Tier 3 Brand drugs. **Physicians are encouraged to prescribe drugs listed in this formulary. Members are encouraged to show this formulary to their physicians and pharmacists.**

MEMBER PRESCRIPTION BENEFIT

The formulary is multi-tiered, placing prescription drugs into one of three copayment levels; generic, Preferred Brand, or Brand. The drug benefit includes almost all prescription drugs, although some exclusions do apply. For example, drugs indicated for cosmetic purposes, e.g., Propecia, for hair growth, are not covered. Coverage and copayment levels vary depending on the plan. Drugs that require Prior Authorization, have Dispensing Limits, or that are included in the Step Therapy program are listed on pages 4-6.

Tier 1 – Lowest copayment: Generic drugs – listed and unlisted generic drugs

Tier 2 – Middle copayment: Preferred Brand drugs – all are listed in this Formulary

Tier 3 – Highest copayment: Brand drugs – listed and unlisted brand drugs

PHARMACY AND THERAPEUTICS (P&T) AND HEALTH CARE SERVICE CORPORATION (HCSC) PREFERRED DRUG COMMITTEES

The Prime Therapeutics P&T Committee includes physicians and pharmacists from throughout the country, and includes a voting member from Blue Cross and Blue Shield of Oklahoma. Prime Therapeutics does not have voting privileges on this Committee. Drugs are recommended for addition to the PrimeNational Formulary after considering safety, efficacy, uniqueness and cost.

Blue Cross and Blue Shield of Oklahoma also uses the HCSC Preferred Drug Committee. This Committee, which includes representatives of Blue Cross and Blue Shield of Oklahoma, considers the recommendations of the P&T Committee and makes the final determination regarding drug changes to the formulary. Members and physicians can view the most up-to-date version of the formulary at www.bcbsok.com.

HOW TO USE THIS FORMULARY

The formulary is organized into broad therapeutic categories. Within most categories, drugs are grouped based upon drug class, e.g. Macrolides, or use for a specific medical condition, e.g. Diabetes. All the drugs listed, whether Generic, Preferred Brand or Brand, are recommended drugs.

Generic drugs are shown in lowercase boldface type. Most generic drugs are followed by a reference brand drug (in parentheses) to assist in product recognition. Some generic products have no brand reference. Brand reference drugs usually take the highest copayment.

Example: ibuprofen (Motrin)

Preferred Brand and Brand drugs are noted in capital letters, followed by the generic name.

Example: NEXIUM – esomeprazole delayed-release

Generic versions of immediate-release dosage forms and strengths of reference brand drugs (shown in parentheses) and all strengths and dosage forms of Preferred Brand and Brand drugs (shown in capital letters) apply to the entry in the formulary. Exceptions are typically noted.

Example: atenolol (Tenormin)

Tenormin is marketed as 25 mg, 50 mg and 100 mg tablets. Each strength is available generically. Generic atenolol is a formulary drug. Tenormin would take the highest copayment (tier 3), and is only noted for reference.

Example: cefuroxime tabs (Ceftin)

Ceftin is marketed as 250 mg and 500 mg tablets and 125 mg/5 mL and 250 mg/5 mL oral suspension. The tablets have generic versions available; the oral suspension is only available as brand Ceftin. The formulary entry includes generic tablets. Ceftin suspension would require a separate entry to be a Preferred Brand (tier 2). Because the suspension is noted as tier 3, it would take the highest copayment (tier 3).

- Individual formulary entries are required for many different dosage forms or routes of administration including oral immediate-release, extended-release, delayed-release, rectal, injectable, otic, ophthalmic, vaginal, nasal, orally disintegrating tablets, transdermal, and topical.**

Example: **estradiol patches** (Climara)
estradiol tabs (Estrace)

Oral immediate-release and transdermal dosage forms of estradiol require separate entries in the formulary.

- The category where a product is listed determines which dosage form(s) are in the formulary.**

Example: VOLTAREN – diclofenac

When listed in the Eye category, this entry indicates that Voltaren ophthalmic solution is a Preferred Brand (tier 2). Voltaren tablets would require a separate entry in the Rheumatoid and Osteoarthritis category to be a Preferred Brand (tier 2).

- The brand reference drug (shown in parentheses) defines the extended-release or combination product listed in the formulary.**

Example: **verapamil ext-release** (Verelan)

The generic version of Verelan is a formulary drug based upon this entry. Other extended-release verapamil products such as Verelan PM or Calan SR would require separate entries to be Preferred Brands.

Example: **sulfacetamide/sulfur** (Sulfacet-R)

Based upon this entry, generic versions of Sulfacet-R are formulary drugs. Sulfacet-R and other brand sulfacetamide/sulfur products would require the highest copayment (tier 3), unless separate brand entries are present.

COST INDEX

Dollar signs are based upon Average Wholesale Price (AWP) or Maximum Allowable Cost (MAC) and range from one (\$) to five (\$\$\$\$\$), ranking the drugs from least to most expensive. Within the same dollar sign, drugs are listed alphabetically. Dollar signs for maintenance drugs are typically based upon a 30 day supply at a commonly prescribed dosage. For drugs not usually taken 30 days per month, a more appropriate basis is used to determine basis is used to determine dollar sign assignment.

\$.....	\$20.00 or less
\$\$.....	\$20.01 to \$40
\$\$\$. . . .	\$40.01 to \$80
\$\$\$\$. . . .	\$80.01 to \$160
\$\$\$\$\$. . . .	More than \$160

GENERIC SUBSTITUTION

Blue Cross and Blue Shield of Oklahoma encourages generic utilization as a way to provide high-quality drugs at a reduced cost. Generic drugs are as safe and effective as their brand-name counterparts, but are usually less expensive. Generic drugs are manufactured under the same strict standards of FDA's Good Manufacturing Practice regulations that are required for brand products including batch requirements for identity, strength, purity and quality.

An FDA-approved generic drug may be substituted for the brand counterpart because it:

- Contains the same active ingredient(s) as the brand drug
- Is identical in strength, dosage form and route of administration
- Is therapeutically equivalent and can be expected to have the same clinical effect and safety profile

To encourage use of generic drugs, Preferred Brand and Brand drugs typically require the highest copayment (tier 3) after a generic version becomes available. Blue Cross and Blue Shield of Oklahoma also encourages generics by having the lowest copayment apply.

In determining the brand or generic classification for covered prescription drugs, Blue Cross and Blue Shield of Oklahoma utilizes the generic/brand status as assigned by a nationally recognized provider of drug product information. The brand/generic classification of a drug might change over time, which usually changes the copayment level.

PRIOR AUTHORIZATION (PA)

A number of drugs including injectables are subject to prior authorization. The medications listed below require prior authorization for most Blue Cross and Blue Shield of Oklahoma members. Physicians must submit the request and provide appropriate documentation indicating the diagnosis and supporting medical necessity criteria. To obtain a request form, call the number on the back of the member's card. Please provide the following information on the prior authorization request:

- Patient name and member number
- Prescribing physician's name and phone number
- Drug, dosage form, strength, directions and indication for use

Please note that this list is not intended to be comprehensive and only includes the most commonly requested drugs. Call the customer service number on the back of the ID card if you are uncertain whether a drug will require prior authorization.

Adderall (amphetamine/dextroamphetamine mixed salts)	Third Tier, Generic = First Tier	Methylin chew tabs, oral soln (methylphenidate)	Third Tier
Amevive (alefacept)	Third Tier or SP	Muse (alprostadil)	Third Tier
Amitiza (lubiprostone)	Third Tier	Neulasta (pegfilgrastim)	Third Tier or SP
Aranesp (darbepoetin alfa)	Third Tier or SP	Neumega (oprelvekin)	Third Tier or SP
Caverject (alprostadil)	Third Tier	Neupogen (filgrastim)	Third Tier or SP
Celebrex (celecoxib)	Third Tier	Nexium (esomeprazole delayed-release)	Second Tier
Cialis (tadalafil)	Third Tier	Oxandrin (oxandrolone)	Third Tier, Generic = First Tier
Copegus tabs (ribavirin)	Third Tier, Generic = First Tier or SP	OxyContin (oxycodone extended-release)	Third Tier, Generic = First Tier
Daytrana (methylphenidate)	Third Tier	Peg-Intron (peginterferon alfa-2b)	Third Tier or SP
Denavir (penciclovir)	Third Tier	Pegasys (peginterferon alfa-2a)	Third Tier or SP
Desoxyn (methamphetamine)	Third Tier	Penlac (ciclopirox)	Third Tier, Generic = First Tier
Dexedrine (dextroamphetamine)	Third Tier, Generic = First Tier	Plenaxis (abarelix)	Third Tier
Dexedrine Spansule (dextroamphetamine extended-release)	Third Tier, Generic = First Tier	Prevacid (lansoprazole delayed-release)	Third Tier
Dextrostat 10 mg (dextroamphetamine)	Third Tier, Generic = First Tier	Prevacid Solutab (lansprazole delayed-release)	Third Tier
Edex (alprostadil)	Third Tier	Prilosec (omeprazole delayed-release)	Third Tier, Generic = First Tier
Enbrel (etanercept)	Third Tier or SP	Procrit (epoetin alfa)	Third Tier or SP
Epogen (epoetin alfa)	Third Tier or SP	Provigil (modafinil)	Third Tier
Focalin (dexmethylphenidate)	Third Tier, Generic = First Tier	Raptiva (efalizumab)	Third Tier or SP
Focalin XR (dexmethylphenidate extended-release)	Third Tier	Rebetol caps (ribavirin)	Third Tier, Generic = First Tier or SP
Forteo (teriparatide)	Third Tier or SP	Revatio (sildenafil)	Third Tier or SP
Grifulvin V Susp (griseofulvin)	Third Tier, Generic = First Tier	Ritalin (methylphenidate)	Third Tier, Generic = First Tier
Hepsera (adefovir)	Second Tier	Sporanox caps (itraconazole)	Third Tier, Generic = First Tier
Humira (adalimumab)	Third Tier or SP	Strattera (atomoxetine)	Third Tier
Kineret (anakinra)	Third Tier or SP	Viagra (sildenafil)	Second Tier
Letairis (ambrisentan)	Third Tier	Vyvanse (lisdexamfetamine)	Third Tier
Leukine (sargramostim)	Third Tier or SP	Xolair (omalizumab)	Third Tier or SP
Levitra (vardenafil)	Third Tier	Yocon (yohimbine)	Third Tier, Generic = First Tier
Metadate CD (methylphenidate extended release)	Third Tier	Zegerid (omeprazole/sodium bicarbonate)	Third Tier
Metadate ER 10 mg (methylphenidate extended-release)	Third Tier, Generic = First Tier		

DISPENSING LIMITS (DL)

Dispensing Limits identify gender or age restrictions, and/or the maximum quantity that can be dispensed over a specific period of time. Limits are in place to encourage appropriate drug utilization, enhance member outcomes, and reduce drug benefit costs. Limits are typically developed based upon FDA-approved drug labeling.

The following brand drugs, and generic versions shown in bold type if available, have dispensing limits as of January 1, 2008. This list is subject to change.

BRAND (generic name)	DOSAGE FORM/STRENGTH	DISPENSING LIMITS per 30-day supply
Actiq (fentanyl citrate)	transmucosal, all strengths	120 units
Advair Diskus (fluticasone/salmeterol)	inhalers, 100/50, 250/50, 500/50 mcg	60 powder disks (1 inhaler)
Advair HFA (fluticasone/salmeterol)	inhalers, 45/21, 115/21, 230/21 mcg	24 g (2 inhalers)
Aerobid, Aerobid M (flunisolide)	inhaler	21 g (3 inhalers)
albuterol	inhaler	34 g (2 inhalers)
Alora (estradiol)	patch	8 patches
Alupent (metaproterenol)	inhaler	28 g (2 inhalers)
Amerge (naratriptan)	tablets, 1 mg, 2.5 mg	18 tablets
Anzemet (dolesetron)	tablets, 50 mg, 100 mg	10 tablets
Astelin (azelastine)	nasal solution	60 mL (2 bottle)
Atrovent (ipratropium)	nasal solution, 0.03%	30 mL (1 bottle)
Atrovent (ipratropium)	nasal solution, 0.06%	30 mL (2 bottles)
Atrovent HFA (ipratropium)	inhaler	25.8 g (2 inhalers)
Avonex (interferon beta-1a)	vial or syringe	1 pkg (4 doses)
Axert (almotriptan)	tablets, 6.25 mg, 12.5 mg	12 tablets
Azmacort (triamcinolone acetonide)	inhaler	40 g (2 inhalers)
Bactroban Nasal (mupirocin)	ointment, 2%	10 - 1 g single use tubes
Beconase AQ (beclomethasone dipropionate)	nasal suspension	50 g (2 bottles)
Betaseron (interferon beta-1b)	vial	1 pkg (15 vials)
Caverject (alprostadil)	injection, all strengths	8 vials
Cialis (tadalafil)	tablets, all strengths	8 tablets
Climara (estradiol)	patch	8 patches
Combivent (albuterol/ipratropium)	inhaler	29.4 g (2 inhalers)
Copaxone (glatiramer acetate)	syringe	1 pkg (30 syringes)
Fluconazole (fluconazole)	tablets, all strengths	14 tablets
Duoneb (albuterol sulfate/ipratropium)	nebulization solution	540 mL (3 - pkg of 60)
Duragesic (fentanyl)	patch	15 patches
Edex (alprostadil)	injection, all strengths	8 cartridges
Emend (aprepitant)	capsules, 80 mg, 125 mg	6 capsules
Emend Therapy Pack (aprepitant)	capsules, 2 - 80 mg + 1 - 125 mg	6 capsules (2 Therapy Packs)
Esclim (estradiol)	patch	8 patches
Estraderm (estradiol)	patch	8 patches
Flonase (fluticasone)	nasal solution	16 g (1 bottle)
Flovent HFA (fluticasone)	inhaler, 44 mcg	53 g (5 inhalers)
Flovent HFA (fluticasone)	inhaler, 110 mcg	24 g (2 inhalers)
Flovent HFA (fluticasone)	inhaler, 220 mcg	12 g (1 inhaler)
flunisolide	nasal solution, 0.025%	75 mL (3 bottles)
Foradil Aerolizer (fomoterol)	inhaler	1 pkg (60 caps)
Frova (frovatriptan)	tablets, 2.5 mg	12 tablets
Golytely (PEG-electrolytes)	powder for solution	4000 mL (1 bottle)
Imitrex (sumatriptan)	tablets, 25, 50, 100 mg	18 tablets

Imitrex (sumatriptan).....	.nasal solution, 5 mg, 20 mg	6 units (1 box)
Imitrex (sumatriptan).....	.syringe, vial, 6 mg/0.5 mL.....	4 mL (8 injections)
Intal (cromolyn).....	.inhaler.....	28.4 g (2 inhalers)
Kadian (morphine sulfate extended-release)extended-release capsules	120 capsules
Kytril (granisetron)oral solution, 2 mg/10 mL.....	60 mL
Kytril (granisetron)tablets, 1 mg	12 tablets
Levitra (vardenafil)tablets, all strengths	8 tablets
Lovenox (enoxaparin).....	.syringe, all strengths.....	12 syringes
Maxair Autohaler (pirbuterol).....	.inhaler.....	14 g (1 inhaler)
Maxalt, Maxalt-MLT (rizatriptan).....	.tablets, 5 mg, 10 mg	12 tablets
Muse (alprostadil).....	.suppository, all strengths.....	8 suppositories
Nasacort AQ (triamcinolone acetonide).....	.nasal suspension	33 g (2 bottles)
Nasarel (flunisolide)nasal solution.....	50 mL (2 bottles)
Nasonex (mometasone).....	.nasal suspension	17 g (1 bottle)
Ondansetron.....	.tablets, 24 mg.....	18 tablets
Ortho Evra (norelgestromin/ethynodiol dihydrogesterone)patch	8 patches
OxyContin (oxycodone extended-release)extended-release tablets, all strengths	90 tablets
ProAir HFA (albuterol sulfate).....	.inhaler	34 g (2 inhalers)
Proventil (albuterol)inhaler, 17 g	34 g (2 inhalers)
Proventil HFA (albuterol sulfate)inhaler, 6.7 g	13.4 g (2 inhalers)
Pulmicort Flexhaler (budesonide)inhaler.....	2 inhalers
Qvar (beclomethasone dipropionate).....	.inhaler, 7.3 g	14.6 g (2 inhalers)
Rebif (interferon beta-1a).....	.syringe, 22 mcg, 44 mcg	12 syringes
Relpax (eletriptan).....	.tablets, 20 mg, 40 mg	12 tablets
Rhinocort Aqua (budesonide)nasal suspension	18 g (2 bottles)
Serevent Diskus (salmeterol).....	.inhaler.....	60 blisters (1 inhaler)
Spiriva Handihaler (tiotropium)inhaler.....	60 capsules (2 boxes)
Tilade (nedocromil)inhaler.....	32.4 g (2 inhalers)
Ventolin HFA (albuterol sulfate).....	.inhaler, 18 g	36 g (2 inhalers)
Viagra (sildenafil)tablets, all strengths	8 tablets
Vivelle, Vivelle-Dot (estradiol)patch	8 patches
Xopenex HFA (levalbuterol)inhaler, 15 g	30 g (2 inhalers)
Zofran (ondansetron)oral solution	100 mL (2 bottles)
Zofran (ondansetron)tablets, 4 mg, 8 mg	18 tablets
Zofran ODT (ondansetron)tablets, 4 mg, 8 mg	18 tablets
Zomig (zolmitriptan)nasal solution.....	12 units (2 boxes)
Zomig, Zomig ZMT (zolmitriptan)tablets, 2.5 mg, 5 mg	12 tablets

STEP THERAPY (ST)

The step therapy program helps ensure member safety while managing the cost of specific medications. Step therapy typically targets high-cost drugs and drug classes of drugs which should have careful assessment of patient selection or prior treatment before providing the drug. Drugs included in this program require that a prerequisite drug be tried before the step therapy drug will be approved for coverage. If the member meets the initial step therapy criteria, then the requested medication will be covered automatically under the member's current prescription benefit. Drug groups subject to step therapy as of January 1, 2008: proton-pump inhibitors and drugs used to treat attention deficit hyperactivity disorder (ADHD) and narcolepsy. This list is subject to change.

SPECIALTY PHARMACY PROGRAM

Effective January 1, 2008, some Blue Cross and Blue Shield of Oklahoma members will have the Specialty Pharmacy Program included in the pharmacy benefit. If the Specialty Drug Program is included in your pharmacy benefit, specialty drugs can only be obtained from one of the specialty pharmacy providers noted below. Please call Customer Service at the number listed on the back of your member ID card if you have any questions about this program.

Specialty drugs are used in the treatment of medical conditions such as hepatitis, hemophilia, multiple sclerosis, and rheumatoid arthritis. Specialty drugs are typically injectable and can be self-administered by the patient.

To provide easy access to specialty drugs, Blue Cross and Blue Shield of Oklahoma added pharmacies that provide specialty drugs to their network of contracted pharmacies. Specialty pharmacies include Coram, MedMark, Pharmacy Solutions, and Walgreens Specialty. Most specialty drugs are provided through Walgreens Specialty. Drugs provided through Coram, MedMark, and Pharmacy Solutions are noted.

Advantages of specialty pharmacies providing these medications include:

- Overnight access to self-administered injectable drugs not readily available at local pharmacies
- Patient education and clinical support
- Refill coordination

Ordering

The ordering process is simple.

- Have your doctor call in or fax your prescription to Coram (Hemophilia products), MedMark (Synagis), Pharmacy Solutions (Lupron Depot), or Walgreens (all other products) at the number noted.
- Your doctor can request fax forms by calling:
 - Coram (800) 388-2273
 - MedMark (888) 347-3416
 - Pharmacy Solutions (800) 859-0220
 - Walgreens Specialty (888) 782-8443
- The specialty pharmacy will contact you to arrange delivery.

They can ship the prescription directly to you or your prescribing doctor's office. Each package is individually marked for each member. Refrigerated drugs are shipped in temperature controlled packaging.
