Blue Cross and Blue Shield of Oklahoma (BCBSOK) understands how hard it can be to change habits and maintain a healthy lifestyle. Yet, sometimes your good intentions aren’t good enough. That’s why BCBSOK offers Blue Points® to keep you motivated and climbing toward your wellness goals.

**How Blue Points Works**
You earn Blue Points every time you engage in healthy activities, such as:

- Setting up, tracking progress and meeting plan goals in the “Get Fit,” “Eat Right” and “Live Well” tools
- Completing and updating the online Health Risk Assessment every six months
- Participating in online wellness programs as well as reading and then rating health and wellness related articles
- Incorporating fitness center visits as a part of your weekly routine through the Fitness Program

**Redeeming Blue Points**
You can redeem your Blue Points for popular health and wellness merchandise and services at the Blue Points Account and Redemption Center.

Redeeming your points is easy. Visit the Personal Health Manager, accessed from Blue Access® for Members at [bcbsok.com](http://bcbsok.com), and select Blue Points. Then choose your available Blue Points redemption level to start shopping!
The Entire Family Can Participate!
Your eligible dependents also can earn Blue Points. Adult and teenage dependents can earn points the same as you; however, recommended activities are based on adolescent guidelines.

Children ages six to 12 will discover their very own programs. They can earn miles that take them on a journey “Around the World.” Accumulated miles allow children to move from one destination to the next – earning stamps along the way. These stamps are redeemable for kid-friendly reward items.

Start Earning Blue Points Today
Enjoy the benefits of better health AND exciting rewards! Log in to Blue Access for Members at bcbsok.com and select Personal Health Manager from the My Health – Tools tab. Then start participating in any of the online For Your Health interactive programs.

Lisa uses the tools available on the Personal Health Manager to help her maintain her weight goal. She creates personalized meal plans that fit her food preferences and dietary needs and logs her daily food intake. To complement her healthy eating plan, Lisa forms an exercise plan and reports her weekly fitness activities. Earning Blue Points for these activities keeps Lisa motivated to maintain her weight, and she is looking forward to redeeming her points for new fitness equipment.

* Blue Points Program Rules are subject to change without prior notice. See the Program Rules and Frequently Asked Questions for further information. Your company may have additional reward programs in place to encourage you to take advantage of certain preventive care and wellness activities or for making healthy changes. Check your employee benefits.
